UNIVERSITY	
VISION STATEMENT	Our vision is to be the top university of choice for Bicolanos everywhere. We will nurture our students through empowering, outcome-based education, to help them become purposeful, productive, and future-ready human beings who will contribute to the sustainable development of Bicol and better tomorrows for all.
MISSION STATEMENT	Our mission is to expand opportunities for every Bicolano everywhere and prepare them for a purposeful life, by providing empowering outcome-based education and a nurturing learning environment.
EDUCATIONAL POLICY	Guided by its Mission and Vision, UNC is committed to achieving its institutional objectives.UNC shall champion continuous improvement in its Educational Organization Management System (EOMS) to meet regulatory and statutory requirements, as well as international standards.UNC pledges to promote scientific and technical developments in the region through research and management of intellectual property as its social responsibility to its stakeholders and the community.
CORE VALUES	1. We Champion Excellence. We consistently strive for excellence in everything we do. 2. We Nurture Dreams. We passionately guide and inspire our students to leverage their potentials and aspire for better lives. 3. We Do The Right Things Right. We uphold integrity in everything we do. We hold ourselves to high standards for accountability and character. We do things right. 4. We Are Dynamic and Creative We anticipate the forces of change. We explore possibilities with intent and purpose. 5. We Respect Each Other and Work As A Team. We collaboratively maximize our talents and capabilities. We hold each other in high regard and passionately realize our shared purpose, priorities and promises.
GRADUATE ATTRIBUTES	Excellent Communicator. Ability to effectively use oral and written skills in sharing and receiving updated and verified information in various communication channels. Creative Leader. Ability to critically think of solutions and strategies that contribute to making great decisions and innovation that promote societal development. Ethically Responsible Citizen. Ability to harmoniously live and work with others with trust, dignity and integrity promoting respect for human rights, multicultural understanding, and preservation of cultural heritage Lifelong Learner. Ability to up-skill, cross-skill and re-skill himself/herself, learn independently , reflect, and adapt with the societal changes/demands.

DEPARTMENT NAME Program: Bachelor of Science in _____	
VISION STATEMENT	
MISSION STATEMENT	
PROGRAM EDUCATIONAL OBJECTIVES	// per program (ie BSIT, BSCS)usually 1-3 PEOs

PROGRAM EDUCATIONAL OBJECTIVES (PEOS) AND ITS RELATIONSHIP TO THE UNC MISSION STATEMENT	
PROGRAM EDUCATIONAL OBJECTIVES (PEOs)	UNC MISSION STATEMENT
1. Utilize competently the acquired technical and non-technical skills in practicing a career in Information Technology.	✓
2. Advance one's skills in Information Technology through the acquisition of best and timely practices, as supported by the foundational skills acquired.	✓
3. Become a globally-competitive Information Technology practitioner, through the aid of continuing education and gain leadership responsibilities, as guided by the university and the college's core values.	✓

PROGRAM OUTCOMES (POS) AND ITS RELATIONSHIP TO PROGRAM EDUCATIONAL OBJECTIVES (PEOs)										
PEOs			PROGRAM OUTCOMES (POs)				GRADUATE ATTRIBUTES			
1	2	3	By the time of graduation, the students of the BSIT program shall have the ability to:				EC	CL	ERC	LL
✓	✓		PO1	Apply knowledge in computing, science, and mathematics in developing IT solutions.				✓	✓	✓
✓	✓		PO2	Apply best practices and standards in developing IT solutions.					✓	✓
✓	✓		PO3	Define the computing requirements appropriate to the solution of a complex problem.				✓	✓	✓
✓	✓		PO4	Analyze user needs in the selection, creation, evaluation, and administration of computer-based systems.				✓	✓	✓
✓	✓	✓	PO5	Develop IT solutions to meet the needs and requirements under various constraints.				✓	✓	
✓	✓	✓	PO6	Integrate IT-based solutions into the user environment.				✓	✓	✓
✓		✓	PO7	Apply knowledge through the use of current techniques, skills, tools, and practices necessary for the IT profession.			✓	✓	✓	✓
✓		✓	PO8	Function effectively as a member or leader of a development team recognizing the different roles to accomplish common goals.			✓	✓	✓	
✓		✓	PO9	Provide technical assistance in the creation of an effective IT project plan.			✓		✓	
✓	✓	✓	PO10	Communicate effectively, both oral and written with the computing community and society.			✓	✓	✓	✓
	✓	✓	PO11	Analyze the local and global impact of computing information technology on individuals, organizations, and society.				✓	✓	✓
✓	✓	✓	PO12	Apply appropriate professional, ethical, and legal practices in the utilization of information technology.			✓	✓	✓	
	✓	✓	PO13	Develop the skills needed to engage in independent and lifelong learning.				✓		✓

COURSE DETAILS

Course No.	BIT313L	Course Description
Course Title	Human Computer Interaction (HCI)	This course explores the principles and practices of Human-Computer Interaction (HCI), focusing on how people engage with digital systems and how to design technology that enhances user experience. Students will examine user-centered design methodologies, usability principles, interaction design processes, and evaluation techniques. The course also emphasizes the integration of emerging technologies for software product design (UI/UX) , equipping students with insights into modern tools and trends that shape interactive systems. Through lectures, hands-on projects, and usability testing, learners will develop practical skills in designing intuitive and user-friendly interfaces that address real human needs. Drawing from foundational theories in psychology, design, and computer science, this course prepares students to create digital products that are both functional and forward-thinking, aligning with current and future developments in UI/UX design.
Credit	2 LEC, 1 LAB	
Contact Hours/Week	2Hrs Lec, 3 Hrs Lab	
Pre-requisites	BIT222L Web Development 2	
Classification/Field	Professional Courses	
CMO	CMO No. 25 S. 2015	
Syllabus Revision No.	2	<i>Legend:</i> I - An introductory course to an outcome E - A course that strengthens the outcome D - A course demonstrating an outcome
Year Level	THIRD YEAR	
Term	1st Semester SY 2025-2026	
SDG Alignment	SDG1 - Title

COURSE OUTCOMES (COs) AND ITS RELATIONSHIP TO PROGRAM OUTCOMES (POs)													
After completion of the course, the student should be able to:	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12	PO13
CO1: Implement the core concepts, theories, and principles of Human-Computer Interface (HCI) in proposing User Interface (UI) design for a software application.	E				E	E						E	
CO2: Create User Experience (UX) designs for software applications by employing the User-Centered Design (UCD) process and integrating ISO 9241-210 standards	E				E	E						E	
CO3: Develop a Front-End Prototype for the proposed software application that follows HCI design principles, UI/UX laws, accessibility standards, and web accessibility guidelines	E				E	E						E	
CO4: Defend the front-end prototype through usability testing and evaluation in UI/UX design.	E				E	E					E	E

				Google's Introduction to Generative AI • Provide Reading materials ○ Beyond the Vibe Coding ○ Figma: User-Centered Interface Design and Prototyping with Figma	• Submission of Certificate of Course Completion	OR 8
CO1	ILO1: Distinguish the core concepts, principles, and theories in designing user interfaces. ILO2: Determine how to use design tools proficiently in creating and refining user interface elements. ILO3: Propose a comprehensive User Interface (UI) design for a specified software application by applying the core HCI concepts, theories, and principles.	Introduction to Human-Computer Interaction (HCI) A. Human Factors in Interaction B. Computer Systems and Interface Components C. Interaction Models and Frameworks D. User Interface (UI) and User Experience (UX) E. Usability Principles and User-Centered Design (UCD) Introduction to User Interface (UI) Design A. Fundamentals of UI Design B. Principles of UI Design C. Artificial Intelligence (AI) Tools for UI Design D. Etiquette in Utilizing AI Tools	Week 1 (3 hrs)	PRE-CLASS (LAB): [S] Read the following reading Material: • Chapters 1-3 of HCI Models, Theories, and Frameworks • Chapters 6-8 of UX Design with Learn Human-Computer Interaction ○ Introducing HCI and UX Design ○ Human-Centered Design Principles ○ Interface Design Values [S] Prepare notes on: • Key differences between HCI, UX, and UI • Examples of user-centered design in real-world interfaces [S] Answer the Checkpoint Test located		TB1 and TB2 TB4 and OR3
